J. Additional Descriptions for Materials Listed Above

a) Sodium Hydroxide Solidified in perlite vermiculite  
DOT 17H 55G drums #A see attached analysis  
for information. pH = 9.6 Sample #3

b) Alkali waste, Drum #B DOT 17H 55G pH=12 see

K. Handling Codes for Wastes Listed Above

a. 03

15. Special Handling Instructions and Additional Information attached analysis for info. Sample #3. Solidified in Urm.

c) Blas-o-cut Drum #C DOT 17H 55G pH=10 see analytical for info. Sample #4. Solidified in Urm. weights are approximate wear gloves and goggles

16. GENERATOR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable international and national government regulations.

If I am a large quantity generator, I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment; OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford.

ARE NEEDED. AVOID SKIN CONTACT. ALTERNATE TSDF: RETURN TO GENERATOR.  
U.S. ECOLOGY W.S. #: 07-004-0910

16. GENERATOR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable international and national government regulations.

If I am a large quantity generator, I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment; OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford.
